Professional Summary

A passionate and reliable final year Computer Science and Engineering student with strong knowledge in Front-End Development and Database Management, UI/UX Design. Skilled in building responsive web applications and designing intuitive user interfaces. A quick learner with a problem-solving attitude, strong analytical mindset, and keen attention to detail.

Education

- **B.E - Computer Science and Engineering**, Nadar Saraswathi College of Engineering and Technology, Theni
  CGPA: 8.1 (up to 7th semester) Graduation (Expected): 2026
- **12th Standard** – 75%
- **10th Standard** – 70%

Technical Skills

- **Programming Languages:** Python, Java, C
- **Database Management:** MySQL, DBMS Concepts
- **Front-End Development:** HTML5, CSS3, JavaScript (Basic)
- **UI/UX Design:** Figma (Basic)
- **Tools & Platforms:** Git, GitHub, Visual Studio Code
- **Soft Skills:** Adaptability, Time Management

Certifications

- **HTML and CSS (Basic)** – HackerRank
- **Problem Solving (Basic)** – HackerRank
- **C Programming Basics** – LinkedIn Learning

Internships

- ExcelR Solutions – Full Stack Development Internship (10 Days): Gained hands-on experience in front-end and back-end development, including client-server communication and REST APIs.
- Astroweb Solutions, Madurai – Web Development Internship (30 Days): Worked on building and enhancing web pages using HTML, CSS, and JavaScript for responsive design.

- VaultofCodes – Web Development Internship (30 Days): Assisted in web development tasks, improving practical skills in creating interactive and user-friendly websites.

- Learnlike – Internship (12 Days): Contributed to various tasks, enhancing problem-solving abilities and hands-on experience.

Projects

- **Motion Capturing and Analysis System** *Python, OpenCV*
  Built a system to track and analyze human movements for motion-based analysis using Python. Implemented frame extraction, object tracking, and basic analytics.
- **Portfolio Website (Personal Project)** *HTML, CSS*
  Designed and deployed a personal portfolio website showcasing projects, skills, and achievements with a clean HTML,CSS.
- **Typing Speed Tester** HTML, CSS, JS
  Built a responsive web application to calculate typing speed (WPM) and accuracy in real time. Implemented timer-based tracking with an interactive and user-friendly interface.
- **Audio and Video Translator** HTML, CSS, JavaScript, Python/Flask, Node.js
  Built a responsive web application that transcribes, translates, and plays back audio and video in real time. Implemented speech-to-text, language detection, translation, and text-to-speech pipeline with an interactive player and subtitle overlays.

Achievements

- Participated in a UI/UX Workshop enhancing practical design thinking and wireframing skills.
- Participated in the Kalam Young Achiever Award 2025 (Waste Wise Category), showcasing innovative ideas on sustainable waste management.
- Took part in the NSCET Hackathon and contributed to developing an Audio and Video Translator, focusing on real-time language conversion

Interests

- Website creating

- Designing
